(Turning The First hour over to the second hour net control)

Thank you to everyone who participated in the net today and to all the shortwave listeners who tuned in! It has been my honor to serve as your net control this morning for the first hour. I will now hand the frequency over to (_____ **name/call sign) for the second hour of the Before Breakfast Club.**

Second Hour Handoff Procedure;

As we transition to the new net controller, please be prepared to hand over responsibilities approximately five minutes before the second hour begins. If there is no check-ins to process, kindly request a tail gunner to conclude the first hour. For stations that are still looking to check in after the tail gunner has been designated, please inform them to connect with the net controller for the upcoming hour.

It's common for some stations that checked in during the first hour to still be present during the transition. Therefore, please keep your remarks brief to ensure we can commence the second hour on schedule. I appreciate your cooperation!

Start the Second Hour;
